

Topic	NEP Relevance	CBSE Guidelines Alignment	Session Overview	Learning outcomes	SESSION TIMEFRAME	Duration
Lesson-1 : Leveraging Creative Thinking and AI-Enabled Pedagogies to Enhance Classroom Learning Outcomes	Creative & Critical Thinking, Experiential Learning, Digital Literacy, AI Integration, Holistic Development, 21st Century Skills (Clauses: 4.4, 4.6, 11.8)	**Knowledge and Practice (Annexure-II) :** a.) Critical & Creative thinking b.) Storytelling as a Pedagogy c.) Experiential Learning d.) Use of Artificial Intelligence in Classrooms **Professional Growth & Development (Annexure-III) :** a.) NEP 2020 **AI in Real-World Contexts (CT and AI Framework, April 2026)**	This session guides educators from understanding current classroom engagement challenges to implementing creative and AI-enabled pedagogies for improved learning outcomes. It explores the role of creativity in bridging learning gaps, introduces simple classroom shifts for better engagement, and demonstrates how AI can enhance personalized and interactive learning. The session culminates in applying these approaches to real classroom practice using Adobe Express to design engaging, student-centred learning experiences.	1. Analyze classroom engagement challenges and identify gaps in current teaching practices. 2. Apply creative thinking strategies to design more engaging and effective learning experiences. 3. Implement simple pedagogical shifts to enhance student participation and understanding. 4. Integrate AI-enabled approaches to support personalized and interactive learning. 5. Design classroom-ready learning experiences using digital tools (e.g., Adobe Express) to enhance student engagement and outcomes.	April-May	01:00

Lesson-2: **Socio-Emotional Learning 2.0: Deepening Impact with Digital Creativity & AI**	Holistic Development, Socio-Emotional Learning, Well-being, Empathy, Life Skills, Collaboration (Clauses: 4.4, 5.1, 5.8)	Core Valued and Ethics (Annexure-1) : a.) Promoting Mental Health and Wellness among Students Professional Growth & Development (Annexure-III) : a.) Happy Classrooms b.) Stress Management **'Mental Health and Wellness' and ' Social Emotional Learning' in Schools (20/02/2026**)	This session builds on foundational SEL practices to help educators deepen impact through intentional integration of digital creativity and AI. It focuses on strengthening students' self-awareness, empathy, collaboration, and well-being by embedding SEL into everyday classroom experiences. Educators will explore how creative and reflective approaches, supported by AI-enabled tools, can foster meaningful emotional expression, relationship-building, and responsible decision-making, leading to more inclusive and emotionally safe learning environments.	1. Design SEL-integrated learning experiences that promote reflection, collaboration, and student well-being. 2. Facilitate emotionally safe and inclusive classrooms that strengthen relationships and peer interaction. 3. Use reflective and creative practices to deepen students' emotional expression and resilience. 4. Leverage digital creativity and AI tools (e.g., Adobe Express) to design personalized and scalable SEL interventions.	July-August	01:00
Lesson-3 : AI Foundations for Teachers — Responsible and Creative Use of Generative AI with Adobe Express	Digital Literacy, AI Integration, Experiential Learning, Critical & Creative Thinking, Ethical Use of Technology, Future-Ready Skills (Clauses: 4.4, 4.6, 11.8)	Knowledge and Practice (Annexure-II): a.) Critical & Creative Thinking b.) Use of Artificial Intelligence in Classrooms Professional Growth & Development (Annexure-III): a.) Capacity Building in Digital Pedagogies b.) Responsible and Ethical Use of Technology **Ethics and Responsible use of AI (CT and AI framework April 2026)**	This session builds a strong foundation in Generative AI for educators, focusing on what AI is, how it works, and its evolving role in education. It explores both practical and creative uses of generative AI in teaching—such as content creation, storytelling, differentiation, feedback, and enhancing student engagement. The session also emphasizes responsible and ethical use, including considerations of accuracy, bias, and academic integrity. Educators will learn how to meaningfully integrate AI into their pedagogy and leverage tools like Adobe Express to design engaging, creative, and future-ready learning experiences.	1. Understand foundational concepts of Generative AI and its role in enhancing teaching and learning. 2. Apply creative and pedagogical uses of AI for content creation, differentiation, and student engagement. 3. Use AI responsibly and ethically while designing learning experiences with digital tools (e.g., Adobe Express).	October-November	01:30
Lesson-4: Creating Real-World Learning Experiences through Creative Projects	Experiential Learning, Competency-Based Education, Critical Thinking, Problem-Solving, Student Agency, Real-World Application (Clauses: 4.4, 4.6, 4.7) **Assessment and Pedagogy in CT and AI (April 2026)**	Knowledge and Practice (Annexure-II):a.) Experiential Learningb.) Critical & Creative Thinkingc.) Competency-Based AssessmentProfessional Growth & Development (Annexure-III):a.) Project-Based Learningb.) Innovative Pedagogical Practices	This session focuses on designing real-world, project-based learning experiences that connect classroom concepts to authentic contexts. Educators will explore how creative projects can foster critical thinking, problem-solving, and student agency while making learning more meaningful and relevant. The session also highlights how digital tools can support the creation, documentation, and presentation of student work, enabling deeper engagement and experiential learning.	1. Design real-world, project-based learning experiences that promote application and problem-solving.2. Integrate creative approaches to enhance student engagement and ownership of learning.3. Leverage digital tools (e.g., Adobe Express) to create, document, and showcase student projects.	December-January	01:30
